Professional Profile

During my degree, I did a three-month internship at County Government of Kisumu in addition to working on multiple personal projects. This has given me the knowledge of software development and organization leadership hierarchy, working both in teams, solo as well as the desire to learn more about the field.

Having worked mostly for smaller firms, my short-term goal is to work in an JavaScript language environment, with a vision to not only write high-quality code but also to master industry best practices.

Core Skills

- Web Application Development
- Front-end Development
- Back-end Development
- NoSQL Database Management
- SQL Database Management
- Data Structure and algorithms

Career Summary

May 2025 to August 2025

County Government of Kisumu, Intern

Acting as the IT support for the department of Agriculture and Fisheries, managing different offices setups and networks. The role required me to develop a high degree of self-sufficiency. I learned to manage my own priorities and execute tasks with minimal supervision, which significantly built my confidence and independence.

Key Responsibilities

- IT support
- Network Troubleshooting
- Software Installation
- Hardware Management and Configuration

Achievements

- Resolved an average of 5+ daily IT support tickets for software, hardware, and network issues, minimizing departmental downtime and ensuring continuous workflow for staff.
- Managed and maintained network setups across multiple offices, reducing recurring connectivity issues through systematic troubleshooting.

Education and Qualifications

- University of Maseno, 2022 to 2025, BSc Computer Science
Module Studied:
 - Database Management
 - Machine Learning
 - Java
 - Pascal
 - C
 - C++
 - Web Application Development
 - Graphic Design
- A-level Nyang'ori Boys High School, 2018 to 2022 :
 - Geography
 - Biology
 - English
 - Physics
